205 GTi 1.6/1.9 GTi  
309 GTI  
306 2.0 XSi 8 valve

ZX Volcano

160 BHP Sports head kit (A)

One of the cheapest 30bhp you will ever buy. Vast improvements in torque and driveability. It really puts a “zip” in the 205 GTi. Mi16 Power at a fraction of the cost of a conversion.

### 190bhp Race Spec Head Kit

In order to squeeze every last ounce of power out of your engine we have added a set 45mm Jenvey throttle bodies with loom kit, coil pack and HT lead kit. The throttle bodies are supplied with a Race breed Emerald K6 ECU. The Throttle bodies give lightening fast throttle response and peak power 7000rpm. The icing on the cake is the inclusion of a race breed ECU to ensure your race head kit works to its full potential while giving you the benefits of launch control and the capability to run 3 separate maps.

It goes without saying the induction roar from these throttle bodies is enough to make the hairs on your neck stand on end.
