### Race Spec head kit

The ultimate Head Kit for those who want a significant edge over the competition. Included is an Ultra Big Valve Head fitted with 1mm larger forged inlet valves and exhaust valves thus giving you the strength and reliability to cope with extreme boost pressures. The valve gear consists of titanium valve spring retainers, Race Spec cams and solid lifter kit. The icing on the cake is the inclusion of a race breed ECU to ensure your race head kit works to its full potential while giving you the benefits of launch control/variable boost control and the capability to run 3 separate maps.

#### **INCLUDED WITHIN KIT**
