

Performance Engine Kits fit the following cars:

106 XS/Xsi/Rallye
 205 Xs
 206 (All 1.4 & 1.6 8 valve engines)
 207 (All 1.4 & 1.6 8 valve engines)
 307 (All 1.4 & 1.6 8 valve engines)
 308 (All 1.4 & 1.6 8 valve engines)

Saxo Furio & VTR
 Xsara (1.4 & 1.6 8 valve engines)
 ZX (1.4 & 1.6 8 valve engines)
 C2/C3/C4 (1.4 & 1.6 8 valve engines)

100 BHP Sports Head Kit (A)

Entry level for maximising the true potential of your car's engine performance. The kit consists of the following parts:

INCLUDED WITHIN KIT

Port Throttle body (ex)	£60.00
Performance Cone filter	£34.50
Ashley Exhaust system	£210.00
Platinum Plug Set	£26.00
Injector cleaner	£15.00
FSE Boost valve	£96.50

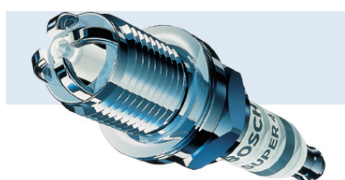

Upgrade Options (B)

Jetex CAT back system	£240.00
BMC Coda induction kit	£174.67
Superchip (C)	£235.00
4-2-1 Branch Manifold	£190.00
Powder coated Rocker cover (ex)	£25.00

Total Kit Price =£435 Ex vat £511.13 Inc Vat

Ashley Manifolds

- 4-2-1 and 4-1
- Race ready
- Direct Fit
- More power!

Want us to fit + FSE setup £ 155.00
 Fitting time 4hrs

Delivery Mainland UK £25 1-2 days
 Delivery EU country From £40 3-5 Days
 Delivery Non EU Country From £60 5-14 Days

130bhp Fast Road Head kit (A)

Giving you the best performance for your 'buck' this kit is best suited to those competing in motor-sport events or the track-day die hard. We have in the past seen in excess of 135bhp with this kit, some 15bhp up on a standard 106/VTS. Gives bags of mid range grunt and peak power around 6800rpm. It does beg the question why you would do a 16v conversion!!

INCLUDED WITHIN KIT

St 3 Gas Flowed Head (ex)	£380.00
Ultimate Fast Road Cam	£175.00
Steel Vernier Pulley	£90.00
4-2-1 Branch Manifold	£195.00
FSE Boost Valve	£96.50
Ported Throttle body	£60.00
Ported Inlet manifold	£40.00
Comp valve spring kit+ setting	£220.00

Upgrade Options (B)

Steel Head gasket	£61.45
Head bolts	£19.45
Competition Head gasket	£93.00
Cam belt	£13.45

150bhp Race Spec Head Kit

In order to squeeze every last ounce of power out of your engine, we have added our own light and compact quad 38mm throttle body kits into the engine. The throttle bodies are supplied with a Race breed Emerald K6 ECU. The throttle bodies are supplied with a Race breed Emerald K6. The Throttle bodies give lightening fast throttle response and peak power 7000rpm. The icing on the cake is the inclusion of a race breed ECU to ensure your race head kit works to its full potential while giving you the benefits of launch control and the capability to run 3 separate maps.

It goes without saying the induction roar from these throttle bodies is enough to make the hairs on your neck stand on end.

INCLUDED WITHIN KIT

St 5 Big Valve Gas Flowed Head (ex)	£750.00
Rally Spec Road Cam	£175.00
Steel Vernier Pulley	£90.00
4-2-1 Branch Manifold	£195.00
38mm Quad Throttle bodies Kit	£1850.00
Comp valve spring Kit	£220.00

Upgrade Options (B)

200bhp Supercharger Head Kit

It will come as no surprise that these tough little engines can more than cope with a “full on” Surpercharger kit. The plate simply bolts onto the front of the block. The Eaton unit is driven by a drive belt off the crankshaft pulley. Power is nothing short of stunning, giving a seamless wave of torque from around 1500rpm to 6000 rpm. The Race breed Emerald K6 ECU. The icing on the cake is the inclusion of a race breed ECU to ensure your race head kit works to its full potential while giving you the benefits of launch control and the capability to run 3 separate maps.

It goes without saying the induction roar from these throttle bodies is enough to make the hairs on your neck stand on end.

gives you an up to date ECU to control every aspect of the engine’s performance. 200+bhp in a light weight hot hatch gives you a power to weight ratio far in excess of any factory spec Evo or STi.

INCLUDED WITHIN KIT

St 3 Valve Gas Flowed Head (ex)	£380.00
Supercharged Spec Road Cam	£175.00
Steel Vernier Pulley	£90.00
4-2-1 Manifold+heat wrap	£230.00
Eaton Charger kit.	£1850.00

(A)= Note: figures quoted are for 1600cc engine only. Kits do suit 1360cc engines but will be approx 20bhp less than the 1600cc power figures quoted.

(B)=Additional options that will be required if fitting the kits yourself and other upgrade parts that will enhance performance and reliability.

(C)= On newer lower emission cars ie 206/207/307/308/C2/C3/C4 the car will require a sports chip to be fitted.

Please note the 1360cc aluminium engines are not suitable for the supercharger conversion. The only exception to this is when using the 1360cc cast iron block.

ALL PRICE ARE EXCLUSIVE OF VAT (17.5%) UNLESS SPECIFIED
