Delivery Eu country	From £40 3-5 Days
Delivery Non EU Country	From £60 5-14 Days

180bhp Race Spec head kit

In-order to squeeze every last ounce of power of your engine, we add our own light & compact quad 38mm throttle body kits into the engine. The throttle bodies are supplied with a Race breed Emerald K6. The Throttle bodies give lightening fast throttle response and peak power 7200rpm. The icing on the cake is the inclusion of a race breed ECU to ensure your race head kit works to its full potential while giving you the benefits of launch control and the capability to run 3 separate maps.

It goes without saying the induction roar from these throttle bodies is enough to make the hairs on your neck stand on end.

St 4 Big Valve Gas Flowed Head (ex)	£750.00
Rally Spec Road Cam	£380.00
4-2-1 Branch Manifold	£195.00
38mm Quad Throttle bodies Kit	£1850.00

250bhp Supercharger head kit

It will come as no surprise that these tough little engines can more than cope with a 'full on' Surpercharger kit. The plate simply bolts onto the front of the block, the Eaton unit is driven by a drive belt off the crankshaft pulley. Power is nothing short of stunning, giving a seamless wave of torque from around 1500rpm to 6500 rpm. The icing on the cake is the inclusion of a race breed ECU to ensure your race head kit works to its full potential while giving you the benefits of launch control and the capability to run 3 separate maps. 250+bhp in a light weight hot hatch gives you a power to weight ratio far in excess of most Exotic Sports Cars.

St 3 Valve Gas Flowed Head (ex)	£450.00
Supercharged Spec Road Cam	£250.00
4-2-1 Manifold +heat wrap	£230.00
Eaton Charger kit.	£1850.00
