Delivery Non EU Country	From £60 5-14 Days

+220bhp Race Spec head kit (a) (NOT VXR MODELS)

In order to squeeze every last ounce of power out of your engine, we have included a big valve head fitted with forged inlet valves, solid lifter Kit. The throttle bodies are supplied with a Race breed Emerald K6. The Throttle bodies give lightening fast throttle response and peak power 7800rpm. The icing on the cake is the inclusion of a race breed ECU to ensure your race head kit works to its full potential while giving you the benefits of launch control and the capability to run 3 separate maps.

It goes without saying the induction roar from these throttle bodies is enough to make the hairs on your neck stand on end.

Peak power at 7800rpm

INCLUDED WITHIN KIT

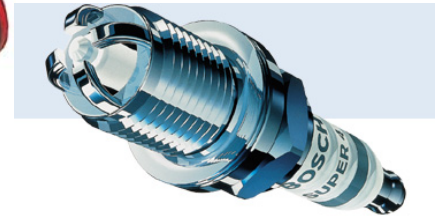

St 4 Big Valve Gas Flowed Head (ex)	£750.00
